Financial assets allocated to 26 Internet projects

The Register of National Internet Domain Names of Serbia (RNIDS) has allocated non-refundable assets to projects complying with the general aims and activities of the Foundation, just like last year. A total of **26 projects** were promoted at the Home of Serbian Internet Domains on **3 October**. Those projects were granted the financial support from RNIDS during the Contest for 2011 Programme of support to Internet popularisation projects.

Out of the total number of **191 projects that had applied** for the Programme of support to Internet popularisation projects, RNIDS Commission decided to allocate 6,000,000 RSD to 26 selected projects. Websites and portals for training, scientific and other purposes make the largest number of the supported projects. Educational and publishing projects from the "real world" that are related to the Internet field were also supported. While making a decision on allocating funds, RNIDS Commission primarily took into consideration the contribution of the project in developing the Internet and telecommunications, along with the expenditures regarding the field of RNIDS activities, which the Commission supported in the chosen projects. Indirect expenditures were not taken into consideration, while none of the projects depicted for financing acquired the total amount required.

The members of RNIDS Commission Petar Kočović and Zoran Stanojević held a presentation on the results of the Contest for Programme of Support to Internet Popularisation Projects. Nenad Marinković, Director of RNIDS, handed in the certificates and contracts to the bearers of the chosen projects, whereas Oliver Subotić delivered a thank-you speech on behalf of the Contest winners.

The main objectives of 2011 Programme of Support to Internet Popularisation Projects were to promote the use of the Internet as the public good, accessible and necessary to all citizens of Serbia, and to increase the volume of useful Internet content in both Serbian language and languages of national minorities in Serbia. All legal entities or entrepreneurs registered in the territory of the Republic of Serbia, as well as all physical persons residing in the territory of the Republic of Serbia, adhering to the prescribed general and special conditions, could participate in the Contest for gaining non-refundable funds from the Programme of Support to Internet Popularisation Projects. The proposed projects had to comply with the general aims and activities of RNIDS and the "Strategy of developing the information society in the Republic of Serbia."

Invitation to new co-founders

RNIDS is an open organisation and the number of its co-founders continuously increases. One of its aims is to **include the broadest social community in the operation of RNIDS**. Thus, we would like to invite all professionals within the local Internet community, interested in the wellbeing of the local Internet space, to become co-founders of RNIDS.

All interested subjects registered with official registries of **legal entities and entrepreneurs** of the Republic of Serbia can join RNIDS, thus becoming co-founders of the Foundation. The decision on the accession of new co-founders is brought by RNIDS Board of Governors, upon which the Accession Agreement is enclosed with the President of RNIDS. After signing, the Agreement is submitted to the Serbian Business Registers Agency for the purpose of entering the new co-founder into the Registry of Endowments and Foundations.

Co-founders pay the **annual membership**, which currently amounts to **12,000 RSD**, and they are also obliged to delegate an authorised representative who will participate in activities of **RNIDS Conference of Co-founders** on their behalf.
